FAQ

Deluxe Marquees Frequently Asked Questions

What about the wind?

Our Marquees are designed to handle high winds, our setup team will explain how to best deal with the winds.

My Marquee is going on concrete can you still setup?

When we can't peg we use either concrete weight or water barrels to secure the marquee.

What about entrances?

Most sections of the marquee can be a doorway, closer to ends there will be braces to support the marquee.

Talk to the team on setup where you want access.

Do you deliver anywhere?

Yes we love to travel, ask us for a price to get to your remote location.

Can I have open flames inside the marquee?

Open flames are not allowed in our marquees expect candles, for heating we have a range of options.

Do they come in different colours

For most of our marquees we only stock white or clear fabric. But we do also have NZ's only fully black marquee.

Can I put a marquee up myself?

With our deluxe range we include setup in our price, we don't offer a self setup option due to the complexity. To bring the cost down we do offer supervised setup and pack-down (this is where you provide 4-6 helpers to put up the marquee with one of our trained team)

How Long can I hire the marquee for?

Base hire is 4 day or (Friday - Monday) with marquee setups we tend to set them up a few day before the event. Looking long term then please enquire.

Are the marquees easy to move once up?

Moving a marquee once half or fully up is a costly task, so please ensure the spot the team start setting up is the correct spot.
