

RED CARPET

PRODUCT INSTRUCTIONS

HAPPY HIRE

READ BEFORE USE

The red carpet must be stored in the supplied storage bag when not in use. It must be kept dry at all times.

Do not use the Carpet outside unless it's not raining and on a plastic sheet.

The carpet is not to be used as a doormat or for wiping feet.

The carpet is 6m long x 1.2m wide and is not to be cut.

HOW TO USE

Setup:

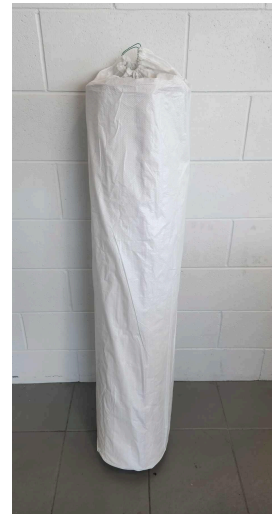

1. Pick a dry location clear of any debris.

If the carpet is to be used outside, a thick plastic sheet must go underneath the carpet otherwise the backing will be damaged.

2. Roll out the carpet approx 1 hour prior to your event to let the edges settle (light duty carpet tape can be used if necessary)
3. The carpet may require a quick vacuum to ensure it looks perfect.

Packup:

1. Ensure the carpet is completely dry.
2. Vacuum the carpet.
3. Check for any stains and clean if necessary (do not use bleach cleaner or bleach stain remover).
4. Roll up the carpet and put it back in the storage bag.
5. Store in a dry location until returned.

Once returned we will check the carpet and notify you if any extra cleaning or a replacement is required. This will be charged accordingly.
